Profile

Software Engineer with 2+ years of experience designing and developing scalable backend applications, RESTful APIs, and cloud-based solutions. Experienced in application development, API integration, asynchronous programming, database design, and AWS cloud services. Proficient in Java, JavaScript (Node.js), Python, SQL, AWS, and backend application development. Strong understanding of SDLC, Agile methodologies, CI/CD, cloud architecture, and secure coding practices. Passionate about building reliable, scalable, and cloud-native applications.

Experience

MeasureOne Solutions Pvt. Ltd.

Associate Software Engineer | Aug 2021 – Sep 2023

- Developed and maintained scalable backend services and RESTful APIs for consumer data applications.
- Built secure APIs with authentication, validation, and error handling.
- Optimized backend performance, reducing data processing time by approximately **30%**.
- Automated document acquisition workflows using Puppeteer and asynchronous processing.
- Integrated AWS services including S3 and CloudWatch for storage, monitoring, and logging.
- Worked with SQL and MongoDB for efficient data storage and retrieval.
- Collaborated in Agile teams, participating in sprint planning, code reviews, testing, and production support.
- Used AI-assisted development tools to accelerate coding, debugging, documentation, and unit test creation while validating generated code for quality and security.
- Investigated and resolved production issues through log analysis, monitoring, and debugging, improving application reliability.

JIO PLATFORMS LTD.

SOFTWARE DEVELOPER INTERN | JAN 2021 – JUL 2021

- Developed backend APIs for Supply Chain Management applications.
- Optimized database queries and migrated datasets from relational databases to MongoDB.
- Participated in testing, debugging, and performance improvements.

Technical Skills

Programming Languages: Java, JavaScript (ES6+), Python, SQL

Backend Technologies: Node.js, REST APIs, Express.js, Microservices Architecture, JWT Authentication

Databases: MongoDB, MySQL, PostgreSQL, Redis

AWS: EC2, IAM, Lambda, API Gateway, S3, RDS, DynamoDB, CloudWatch, VPC, SNS, SQS, ECS

DevOps & Tools: Docker, Kubernetes, Git, GitHub, Postman, Jira, Datadog, CI/CD pipelines

Methodologies: Agile, Scrum, SDLC

AI Developer Tools: GitHub Copilot, Cursor, Claude AI, ChatGPT

Education

- **M.Tech** – Computer Engineering, SVNIT Surat (2021) – CGPA: 7.65
- **B.Tech** – Computer Science & Engineering, GWECA Ajmer (2018) – 73.7%
